FISHING PROCEDURES

Rules and regulations of the Pennsylvania Fish Commission governing the waters to be fished will be strictly observed.

All trout will be counted in the scoring.

All scoring ends for the contestant on a beat, when his fly pattern becomes irretrievably lost.

The contestant can not continue to fish the beat where the fly was lost, but can resume fishing on the next assigned beat with a new fly.

Beat will be assigned by a random system ahead of time.

Fishing times will be divided into sections shown at left, one hour on, one hour off.

Controllers may assist in the landing of any fish, to be scored in the contest, with permission of the fisherman who has the fish on the line.

If the contestant's fishing fly becomes caught in brush or snags, it may be recovered and reattached to the leader and he may continue fishing in the contest; however, if any unsafe practice is used to retrieve a fly, the contestant can be disqualified by the controller.

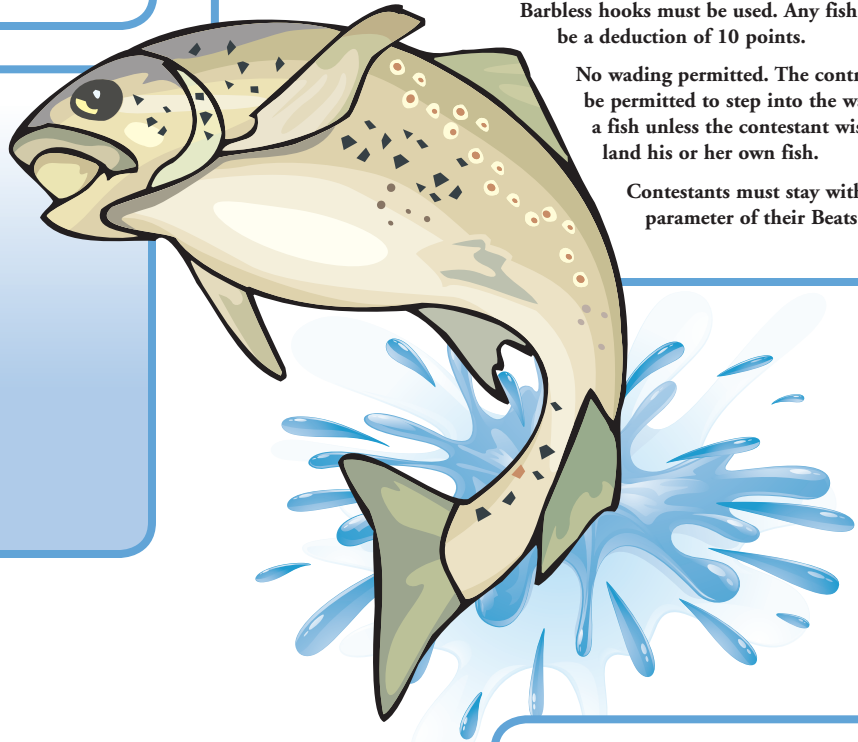

Nets will be used to land fish to avoid harm to the fish. Barbless hooks must be used. Any fish killed will be a deduction of 10 points.

No wading permitted. The controller will be permitted to step into the water to net a fish unless the contestant wishes to land his or her own fish.

Contestants must stay within parameter of their Beats.
